Editorial

This is a volume number 11, issue 1 of *Journal of Architectural/Planning Research and Studies (JARS)* which covers 8 papers on relevant topics in Architecture and Urban Planning. On the first paper, it reviewed about the issues of Buddhism vernacular architecture in Songkhla Lake Basin. The second paper applied the participatory process in urban regeneration around Wat Mangkorn Kammalawat MRT Station which aims to determine the factors leading to the failure of the project, learn the flaw of the project running, and propose the ways to adjust the role of stakeholders and improve the working steps in urban regeneration. Follow by the third paper, this article investigated the history of the production of space by Sino-Thai and their spreading of that urban space, both physically and socially by using a social science approach. The fourth paper was focused on an approach to promote cycling on university campus. Next, the fifth paper utilized GIS-multivariate analysis approach to delineate thermal climate units and to understand the thermal impacts which plays an important role to regulate temperatures in the urban environment. Furthermore, the sixth paper also proposed the solution for reducing energy consumption of an office building facade with self-shading applications. This finding is useful for architects who are interested in the facade design, and can effectively use self-shading facade to maximize energy conservation benefit. The seventh paper proposed a calculation method of Effective Solar Radiation (ESR) for office buildings to manage building energy efficiency. In order to meet the OTTV requirements, this paper recommended adding insulation, using energy efficient windows or keeping the low reflectance from surfaces of landscape around the building. The final paper is to explore ideas and operations of social design practices that combine the value of social responsibility with designers' day-to-day practices. Furthermore, the book review in this journal is "The story of post-modernism: Five decades of the ironic, iconic and critical in Architecture"

We trust this issue will again provide a multi-perspective of architecture and urban planning related issues to our readers and the general public with useful research findings and information for a wide range of educational, research, and policy study activities. Finally, we would like to express our sincere appreciation to the authors for their continuous support of producing this journal. Moreover, we would like to express our sincere gratitude to our editorial board and reviewers, who have always given us their generous support, to all those who have given their valuable time in writing or editing the manuscripts in this issue, and to all of our editorial staff for their dedicated works in getting this issue out on time.

Associate Professor Pawinee Iamtrakul, Ph.D.

Editor-in-Chief

Contents

- 1 พุทธศาสนสถาปัตยกรรมพื้นถิ่นลุ่มน้ำทะเลสาบสงขลา
Buddhism Vernacular Architecture in Songkhla Lake Basin
Isarachai Buranaut and Kreangkrai Kirdsiri
- 21 ความสำคัญของกระบวนการมีส่วนร่วมในการพัฒนาย่านเก่าของเมือง: กรณีศึกษา พื้นที่บริเวณสถานีรถไฟฟ้าใต้ดิน
วัดมังกรกมลาวาส
Importance of Participatory Process in Urban Regeneration: Case Study of Wat Mangkorn Kammalawat
MRT Station's Surrounding Areas
Churit Kangwanpoom
- 37 คนไทยเชื้อสายจีนกับบทบาทในการผลิตพื้นที่เมืองในไทยทศวรรษ 2490
The Role of Sino-Thai in the Production of Urban Space in Thailand in the 1950s
Pinyapan Potjanalawan
- 59 Guidelines to Promote Cycling on University Campus: Case Study of Kasetsart University,
Mahidol University and Thammasat University
แนวทางการส่งเสริมการใช้จักรยานภายในมหาวิทยาลัย: กรณีศึกษา มหาวิทยาลัยเกษตรศาสตร์ มหาวิทยาลัยมหิดล
และมหาวิทยาลัยธรรมศาสตร์
Waralak Khongouan and Satida Sakulrattanakulchai
- 73 Classifying Thermal Climate Zones to Support Urban Environmental Planning and Management in the
Bangkok Metropolitan Area
การจำแนกเขตภูมิอากาศความร้อนเพื่อสนับสนุนการวางแผนและจัดการสิ่งแวดล้อมเมืองในพื้นที่กรุงเทพมหานคร
Manat Srivanit, Kazunori Hokao and Pawinee Iamtrakul
- 93 แนวทางการออกแบบกรอบอาคารสำนักงานโดยการบังแดดด้วยรูปทรงอาคารเพื่อการประหยัดพลังงานในเขตร้อนชื้น
Design Guideline of Office Building Facade with Self-Shading for Energy Conservation in Hot-Humid Climate
Ratha Jittawisutthikul and Jatuwat Varodompun
- 109 Assessment of Overall Thermal Transfer Value (OTTV) in Buildings with Inclined Glass Wall
การประเมินค่าการถ่ายเทความร้อนรวม (OTTV) ของอาคารผนังกระจกเอียง
Sudaporn Sudprasert and Sivayu Klinsmith
- 119 Social Design Enterprises in Thailand: Potentials and Challenges
ธุรกิจการออกแบบเพื่อสังคมในประเทศไทย: ศักยภาพ และความท้าทาย
Boonanan Natakun and Khemmiga Teerapong
